Subject: Branden's Hunt

Tony; Mike & Craig:

I have heard Branden has been over whelmed with excitement & Chris as well sounds overwhelmed & so touched by this trip their on. We all here cried when we heard how excited Branden was on the hunt! I can only see him and if it's like his love for football I'd say it was heart touching to see!

I can say I have had peace about their stay by the things they have shared with us; oh except for the flying that scared me quite some when I seen the plane taking off with my guys; but I have over come that for the time. We all have never flown.

Branden & Chris I hope has been on their best behaviors. Their great kids, I hope their lives has shared a experience with others whom they have talked about and we wish all the others had a great experience like Chris & Branden. I hope they have been kind to everyone.

Thanks for sharing this life time experience with Branden & Chris. Branden has a doctors appointment in Detroit Michigan on the 23rd at the Children's Hospital with his Orthopedic physician; Dr. Eric Jones.

For a moment I even thought about flying my self instead of that long travel; driving. ha! ha!

Thanks guys for taking so good care of the guys and we hope to hear from ya'll.
