Payson, AZ 85541

Dear Mr. Scott Crabdree:

My name is Greg Evans, father to David, age 15 with Duchene Muscular Dystrophy. Tony Semple, founder of the Tony Semple Foundation, sponsored David for an alligator hunt in Vero Beach Florida, which is located near Orlando Florida on November 8-10th, 2008.

Tony and Mike Leonard were very gracious hosts and simply could not do enough for us. We wish to thank you and the Bog Gear, LLC for being a sponsor to such a worth while Foundation. Tony runs a very well run organization and puts his heart, love and soul into making wishes come true for so many well deserving children.

My son is diagnosed with Duchenne Muscular Dystrophy. David's bones have become frail and his muscles deteriorating which limits his movements and activities. Tony and Mike found ways to accommodate David's needs with detail care and concern throughout the entire trip. They graciously gave David a Bog-Pod from your company to use to support his gun while shooting. Prior to the hunt we went to the range to see if the boys could hit the target. Davey missed the bulls-eye by one inch but the next shot he made was dead center. A perfect bulls-eye! From there we went out to the plantation where after 5- 6 hrs looking down the levies, creeks and ponds, Davey brained a nice 6 ft gator right between the eyes with one shot. Without this Bog-Pod, Davey would never have had the opportunity to shoot as accurately as he did as he is unable to hold a gun by himself. Knowing that they would be without a Bog-Pod to use on future hunts, Tony and Mike were so impressed with David's accuracy that they gave him the Bog-Pod to take home, so he could continue to practice his shooting skills for as long as he is able.

We hope that you can see just how valuable your sponsorship and contribution is to this foundation. We hope that you will continue to help Tony and Mike put smiles on many children's faces as they certainly did for my son David. He will never forget this trip.

With sincere thanks and appreciation,

Greg and David Evans
