

Hi,

My son, Weston Zucha, just got home last Wednesday from hunting at Muy Grande Ranch. He had the time of his life and actually cried when he got home. He wishes he could come again since he said it was like Heaven. It was amazing that he said he was so happy and having so much fun that his sores didn't even hurt. His skin actually looked better when he came home :) I wish it would have stayed that way.

Thank you so much for the opportunity you gave him and his dad for the trip of a lifetime!

They told me that we are supposed to be telling everyone about it so that more people will apply. I work for Crosby ISD and I told the physical therapist about the opportunity and how awesome it was. I asked her if she knew anyone that would be interested and she told me about a girl in a wheelchair that loves to go hunting with her dad. So, now I just need to know what we have to do next.

Thanks again for everything,
Dana Zucha
